IT'S BRYAN AT DENVER

With Wonderful Enthusiasm Big
Convention Begins. Banner
Bearing Bryan Portrait
Starts Noise.

Denver, July 7.—With cheer from ten thousand throats, with the swell of political oratory and the inspiring spectacle of a vast multitude of people, the democratic national convention began its deliberations today.

The session, lasting a little over two hours, was notable more for its impressive magnitude and spectacular effects than for the business accomplished. It gave, however, the opportunity for the awakening echoes of convention enthusiasm, the keynote speech of the temporary presiding officer, Theodore A. Bell, of California, a heated skirmish incidental to the contest in the Pennsylvania delegation, and finally a unanimous tribute of homage and respect to the memory of the late Grover Cleveland. But the enthusiasm of the opening session was comparatively brief, intermittent and tempestuous, without that long sustained and frenzied clamor which is still reserved for the future.

The day was devoted chiefly to the primary formalities, and the committees are now at work perfecting the permanent organization to be presented tomorrow. Mean-

time the convention hosts chase over the two days' delay which must intervene before the great purpose is accomplished—the nomination of a presidential candidate.

The tide of Bryan sentiment sweeps on, gathering force as it proceeds, and tonight the chorus of Bryan, Bryan is well nigh universal. With it is a steady growing undercurrent for the nomination of George Gray of Delaware as vice president, and this movement, at first intangible, has now assumed a definiteness which promises to merge it soon with the seemingly overwhelmingly current moving toward Bryan. Tonight the opponents of Bryan are still seeking to unite their strength against him with the hope of ultimately accomplishing his defeat.

It was a stirring scene which spread before Chairman Taggart at noon today, when with uplifted gavel, he sought to bring order out of a confused babel of sound and motion. The splendid amphitheater, bedecked with flags and bunting, was packed to its utmost with a dense

CRAZY SNAKE BAD AGAIN

Many Hundred Armed Threaten to
Fight till Death

Henryetta, Okla., July 7.—Threatened outbreak of the tribe of Crazy Snake, which is congregated on the old Hickory camp ground near Senora, has created a reign of terror in this region today, and 500 people from the country immediately surrounding Henryetta have flocked here tonight for protection. Crazy Snake's refusal to surrender the guns of his tribesmen today and his fiery speech to his people, were looked upon as the final act preceding armed hostilities.

Armed men are patrolling the town tonight. During the afternoon messengers were dispatched into the country to spread the warning.

Weleetka, Okla., July 7.—"Stand firm, my men. Don't forget your vows. Die game if necessary. We will not disband. We have formed a government of our own and we will manage our own affairs."

This was the exhortation delivered to 3,000 Indians, by Chitto Harjo, Crazy Snake, today, after the Indians refused to deliver their weapons upon demand of Sheriff M. L. Odum of McIntosh county.

Commanded to disband under threat of arrest, the Indians gave a sharper refusal than at first. Sheriff Odum then dispatched a request for Acting Governor Bellamy to order out state troops.

BASE BALL ANNOUNCEMENT.

Together With a Few Observations
Concerning the Game and Ada's Team.

The News is requested to announce the beginning with the regular hour today, Wednesday afternoon, a series of three games will again be played with the Coalgate Invincibles by the Ada team. It will be remembered that the most interesting games of this season were played with the Coalgate team which is ranked with the very best of all

amateur teams in the southwest this season.

The last series of games with Coalgate resulted in a victory for Ada, the best two out of three, the game being the most interesting one, since it required 16 innings before the victory could be achieved by either side, Ada finally winning by a score of 3 to 2. There is no question but that all fans and all those who desire to show an appreciation of Ada's splendid team will make an effort to witness these games. The majority of the members of Ada's team are home boys and have

HALF PRICE FOR THREE DAYS

Lived here from childhood, all the others, more or less closely attached to Ada on account of long residence or because of the nice treatment received at the hands of their fellow players and the citizens generally, most of whom are enthusiastic fans. The following list of names is the regular line-up for the game with Coalgate. It will be noticed that "Patty" Will Coffman will occupy the box. The Ada folks like to see "Patty" pitch, particularly because he is a good one and next, because it is recognized that he has done more than any other man, likely, to build for Ada this season a good ball team. Mr. Coffman is one of the substantial citizens of Ada, and besides playing ball engages his attention all along the line to the best interests of Ada. "Patty" Coffman keeps in a good humor and plays ball with a vim, notwithstanding his alfalfa farm was considerably damaged by the flood. The line-up for the rest of the week is as follows: Chas. Gorman, short stop; John Kaiser, second base; Jim Ellis, first base; Harry Wright, centerfield; Earnest Reed, leftfield; Clyde Kaiser, catcher; Will Coffman, pitcher; Dewitt Bone, third base; Tom Shirley, rightfield.

All who have witnessed the ball games in Ada are good friends to Mike McDole, the Indian pitcher. Mike is good enough, says Sam Torbett, for the Texas league or most any other old league. He will be with Ada all the summer and will render good services. Jim Flowers, lately of Garland, Texas, has moved to Ada and will be engaged with Coffman's boys the rest of the season. Charlie Ellis, who is at present the manager of the Ada team, is not playing ball this year, although he is counted a good player.

The Leans and the Fats will pull off the game as advertised this afternoon. It became noised around this morning that likely the game could not be organized for the afternoon, but later, it was thought enough enthusiasm prevailed to get out enough of the old Fats and Leans to pull off a good game.

Let everybody remember the base ball appointments for this week.

and seething mass of humanity. Here and there amid this bewildering throng stood out the notable groups of leaders. Immediately in front and under the presiding officer's eye, were ranged the Nebraskan delegation, bronzed sons of the west, headed by the cowboy mayor, Dahlman, the personal spokesman of Bryan. Well in front were the New York cohorts, with Chief Murphy, cold and impenetrable, and Judge Parker rather serious-faced. Further back Colonel Guffey was the smiling center of his Pennsylvania adherents, and near him James Kerr who is struggling to displace Guffey and take up the leadership. Illinois was to the left center, with the renowned Roger Sullivan to the fore. Further back Tom Johnson, the fighting mayor of Cleveland, moved among his adherents until the gavel sent him to his place among the distinguished guests upon the platform. Near him there sat a notable group—the venerable Senator Daniel of Virginia, a type of the old-time southern, with Towne, the vice presidential candidate and orator, and the tall, blonde wasp Congressman Sulzer of New York. With the Virginians could be seen Governor Swanson with Nevada, Governor Dickenson and Senator Newland; with Kentucky, Senator McCreary; with Missouri, Senator Stone, and occasionally ex-Governor Dockery and the redoubtable Champ Clark, Former Senators Dubois and Heitfield.

Johnson Men in Background.

Minnesota, with the Johnson lieutenants, was poorly placed in the rear, while Delaware, with the Gray forces, was better off in the right fore ground.

The appearance of the temporary presiding officer, Theodore A. Bell, of California, was another signal for enthusiastic outburst. He came forward amid the storm of tribute, tall and sturdy, but rather immaculate for one of the untried, with silk fronted Prince Albert coat, resplendent with convention medals and watch charms, giving the appearance of a decorated diplomatist. In strong, far-carrying voice and easy gesture, he delivered the opening address, a full hour long, with resounding passages, on the righting of public wrongs, punctuated with yells as some phrase tickled the fancy of the throng. It was noticeable that great applause came from the delegates at Bell's impassioned declaration that the writ of injunction shall not be turned into an instrument of oppression. Again there was uproarious applause as

he arranged "republican campaign contributions without a cash register."

After referring to Taft as a "mis-directed candidate," and demanding "but one man in the White House at a time," he adroitly turned his speech into a panegyric for Mr. Bryan, the reference to the Nebraskan leader bringing forth tumultuous demonstration.

Haskell to Join Campaign.

Guthrie, Ok., July 2.—Gov. Haskell will have a speaking part in the approaching national campaign. On his return from Denver he will address the people of Sterling, Kan. Later the Governor will make a tour of the Middle States in the interest of the democratic ticket. It is Mr. Bryan's wish that he tour Ohio the Governor's native state. In all probability he will be expected to make between twenty and forty speeches.

RESOLUTION.

In Council Chambers of the City of Ada, Oklahoma.

Whereas, the first legislature of the State of Oklahoma has seen fit and wise to enact and pass into a law "House Bill No. 231," being "An Act to provide for the improvement of streets and other public places within cities of the First-class, by grading, paving, macadamizing, curbing, guttering and draining the same and declaring an emergency," and

Whereas, the city of Ada, Okla., has grown from a small country village to a city of the First-class under the laws of the State of Oklahoma, duly declared to be such by the Governor thereof; and

Whereas, the increased traffic on and over the public thoroughfares of the said city makes it imperative that more efficient and substantial streets and highways be built in the said city at once.

Therefore, be it resolved by the mayor and the councilmen of said city, in regular session assembled, that an urgent necessity for the paving, guttering, grading and curbing of Main street of said city, from the west side of the right of way of the St. Louis and San Francisco railroad to the east side of the right of way of the Missouri, Kansas and Texas railroad, Townsend avenue of said city, from the middle of 12th street, on the south to the west side of the right of way of the St. Louis and San Francisco railroad on the north Broadway avenue of said city, from the middle of 12th street on the south to the west side of the right of way of the St. Louis and San Francisco railroad on the north and Rennie avenue of said city, from Main street to the middle of the alley between Main and 12th streets, be and is hereby declared to exist; and resolved further, that the said mayor and councilmen will proceed to grade, pave, gutter and curb the said streets and avenues between the points aforesaid with vitrified brick or asphaltum after fifteen days from the last day of the publication of this notice.

Passed and approved, this 6th day of July, A. D., 1908.
GEO. A. HARRISON, Mayor.

After some discussion it was moved by Crowder, seconded by Evans, that above bill be allowed to stand as originally passed. Carried.

The council entered into a discussion of street and sidewalk grades, street paving, bond issues and etc., whereupon Little moved and Sims seconded, that a committee be appointed to arrange to meeting with the 25 club and citizens to discuss questions of interest to the city, Carried, and mayor appointed Sims and Little.

Chief Culver asked that he be given help to look after the impounding of stock and dogs. Referred to ordinance committee.

Motion to adjourn carried.

Council met in adjourned session, Mayor Harrison presiding. Present, Sims, Shirley, Little, Sutton, Crowder, Evans, Absent, Haynes and Hill. Mr. Sims of the committee appointed to arrange a meeting with 25 thousand club and citizens, reported that owing to failure of the president of the club to call meeting none had been held.

City Attorney Holt read and explained portions of law relating to improvements.

Mr. A. L. Beck, president of the Oklahoma Portland Cement Company, urged upon the council the necessity of pushing the work on the reservoir dam, and suggested a night crew. A motion by Sims, seconded by Shirley, that water committee confer with Mr. Lumsden and arrange for completion of work at earliest possible time and put on right crew as suggested by Mr. Beck. Carried.

The mayor appointed Sims and Evans a committee to take up with the Oklahoma Portland Cement Company the proposition of extending a water main to Sandy Creek.

Several citizens residing on Cherry Ave. asked that city take some steps to drain water off above avenue and street committee was asked to take steps at once to have same done.

Moved by Little, seconded by Evans, that all bids for establishment of a street grade heretofore opened, be rejected and that the council again receive bids at its next meeting, July 6. Carried.

W. C. Castleberry, through Alderman Little, asked that the city make him a deed to lots 5, 6 and 8, in block 75 in the city of Ada, Oklahoma, formerly the Chickasaw nation, Indian Territory, as per a former agreement made with the city. The city attorney was instructed to investigate same, and if found correct to sign deed to same by the Little, Sutton, Crowder, Evans, Noes, following vote: Ayes, Sims, Shirley, none.

The contract with the Ada Electric & Gas Company was read and accepted on motion by Evans, seconded by Little.

Motion to adjourn carried.

KANSAS IS SORRY.

Sister State Offers Good Advice on Question of the Oklahoma School Lands.

Under the above caption, the Kansas Mail and Breeze, one of the best agricultural papers of the west, discusses the school land question as it is presented in Oklahoma at this time. Read what it has to say:

"Oklahoma is debating the question of selling the school lands or holding them for lease. We presume that Oklahoma will sell the lands but in time the people will find out that they have made a mistake.

"Let us figure a little on the experience of Kansas. Originally there were set aside two sections of land in each township for the support of the common schools. Kansas has an area of 81,700 square miles. There are in the state all told 2,269 townships and 4,538 sections of school land. It is certainly a conservative estimate at the present time to say that the average value of these lands is \$4,000 per quarter or \$16,000 per section. If the state now owned this land it would be worth at a conservative estimate \$72,698,000. What a magnificent endowment for the common schools of the state! At an average rental of \$1 per acre the revenue from this land would amount to \$2,994,320 per annum. There are about 8,000 school districts in the state of Kansas and this revenue from school lands would furnish an average of \$364 per annum for each district.

According to the last biennial report of the state superintendent of public instruction, there was paid out for teachers' wages and supervision of schools in the state of Kansas during the year 1906 the sum of \$4,117,274. If the state owned the lands originally granted for the support of schools the revenue would pay nearly two-thirds of this bill. An average rental of \$1 per acre would pay more than half the annual expenditure in the state teachers' wages, buildings, repairs, fuel, lights and all other items of expense in keeping up the schools. Take a look at your school tax receipts and you are apt to find that your school taxes are the bigger half of all the taxes you have to pay. If the state of Kansas had been wise enough to keep her lands instead of footing them away the school taxes would be cut down more than one-half.

It is safe to say that if the state of Kansas now owned its school lands and rented the same at a moderate rental the revenue derived therefrom would be at least nine times as great as the revenue now derived from the permanent school fund. And what security could be safer than these lands? Bonds of the best of corporations or of the most solvent of municipalities may become worthless. Towns have sprung up and flourished for a time and issued bonds which seemed good enough. Afterward adversity struck the town and it faded from the map. Of course the bonds became worthless. The state school fund has generally been honestly managed but nevertheless there are tens of thousands of worthless bonds held by that fund right now. Oklahoma will make a mistake to sell her school lands."

We know of no safer way to judge the future than by the past. If the people of Kansas are today finding out that they made a mistake in selling off their school lands in the early days, before values had reached their maximum amount is it not reasonable to suppose that the people of Oklahoma will awaken to find themselves in the same condition in the years to come if they sell all the school lands at this time?

Then again there is the question of security of investment. The value represented in these lands in its present form is the safest investment it is possible to make. The lands can neither be stolen, destroyed or frittered away. No designing politician can possibly manipulate them for the benefit of his own personal interests.

If the lands were sold and the money invested in bonds, mortgages, or the like, it would always be a constant source of temptation to the seeming, and unscrupulous. Doubtless some part of it—for that is the history of the handling of these funds in other states—would be improvidently or insecurely invested and lost. The balance would not in all probability be invested so as to yield better returns than in the lands.

The people of Oklahoma ought to think of these things before they vote to turn loose all these lands at this time, keeping in view at the same time that these lands were given to us for the benefit of the common school fund. Let's handle them so that they will conserve the interests of that fund rather than the interests of the lessees or anybody else.

Longworth Gives Three Cheers for W. J. Bryan.

Omaha, Neb., July 5.—Nicholas Longworth and his wife en route for Denver, were attempting to keep from being recognized at the station here today, but a delegate from Michigan spied them and, rushing within the car, dragged Longworth to the platform.

"Three cheers for Longworth," cried the Michigander, and they were given by 150 Michiganders and joined by the others on the platform. "And three for his wife," called another, and they, too, were given. "Now, three for Roosevelt, the wife's father," and the crowd, almost all en route to the Democratic convention, sounded a tiger. Then Longworth's train started and, when Longworth had swung himself onto the steps, he yelled, "Three cheers for William J. Bryan!"

He joined in the deafening cheers which followed.

HASKELL TO BE IN CABINET

Stated for Secretary of the Interior if Bryan Is Elected.

Denver, Colo., July 6.—In the event of Bryan's election as president, Governor Haskell of Oklahoma is slated for a cabinet position. It is understood that he will be secretary of the interior. That department has control over all affairs of the Indians of Oklahoma, including their persons, their cash and their property.

Haskell has lived among the Indians long enough, he believes, to know what is best for them and for the new state. His term of governor will have two years to run, but he will give up to go into the cabinet. He feels that he can have all his reforms in operation in Oklahoma by that time, and that he can trust the reins of state government in the hands of the lieutenant governor.

Be Kind Today.

Do not keep the alabaster boxes of your love and tenderness sealed up until your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their ears can hear them and while their hearts can be thrilled and made happier by them; the kind you mean to say when they are gone, say before they go.

The flowers you mean to send for their coffins send to brighten and sweeten their homes before they leave them. If my friends have alabaster boxes laid away, full fragrant perfumes of sympathy and affection, which they intend to break over my dead body, I would rather they would bring them out in my weary and troubled hours and open them, that I may be refreshed and cheered by them while I need them. I would rather have a plain coffin without a flower, a funeral without an eulogy, than a life without the sweetness of love and sympathy.

Let us learn to anoint our friends beforehand for their burial. Post-mortem kindness does not cheer the burdened spirit. Flowers on the coffin cast no fragrance backward over the weary way.—Amber.

PLATFOR PLANKS WHICH HAVE BRYAN'S APPROVAL

Lincoln, Neb., July 5.—Opening with a sharp challenge to the republicans for failure to put into their platform specific declarations upholding the policies "professed" by the Roosevelt Administration, the platform that will be sent from Lincoln to the resolutions committee of the democratic national convention at Denver has been about completed. It follows closely the lines of the Nebraska platform as written by Mr. Bryan last March, and is one of the shortest enunciations of the kind in the modern political history of the country. Following the arraignment of the republicans for retreating from the "advanced position" taken by their "titular" leader during the last four years, the document will contain a fitting reference to the death of Grover Cleveland.

Here are the leading points made in the platform:

"We favor an immediate revision of the tariff. Articles entering into competition with articles controlled by trusts should be placed upon the free list."

"We favor an income tax * * * and a national inheritance tax to reach the 'swollen fortunes' already in existence."

"Both Nation and States should ascertain present values of railroads, measured by cost of reproduction; prohibit issue of any more watered stock or fictitious capitalization; prohibit railroads from engaging in any business which brings them in competition with their shippers; and reduce transportation rates to a point where they will yield only a reasonable return on the present value of the roads."

"Emergency currency should be issued and controlled by the Federal Government."

"We are opposed to the admission of Asiatic immigrants who can not be amalgamated with our population."

"We favor such a modification of the law relating to injunctions as will first, prevent the issuing of the writ in industrial disputes except after notice to defendants; second, permit trial before a judge other than the one who issued the writ; and third, allow a jury to be summoned in all cases where the alleged contempt is committed outside the presence of the court."

"Equal rights to all and special privileges to none is the overshadowing issue at this time."

"We insist upon legislation, State and National, making it unlawful for any corporation to contribute to campaign funds and providing for publication, before the election of all individual contributions above a reasonable minimum."

"We favor the election of United States Senators by direct vote of the people."

"We favor the vigorous enforcement of the criminal law against trusts and trust magnates."

WEST WHETTING KNIFE TO BALK ENCRAGEMENT

Guthrie, Okla., July 1.—The Prairie Oil and Gas company, alleged branch of the Standard, has its pipe line within the boundaries of the state in Washington county, and is rapidly extending, with its ultimate destination the shallow pool district. It has not domesticated, but is proceeding under a tentative, agreement reached some time ago between Governor Haskell and President O'Neil of the company.

The company proposes to cross public highways after having secured the consent of the county commissioners. This was a part of the agreement with the governor.

Attorney General West maintains that such procedure would be in clear violation of the state constitution and so soon as he is reliably informed of such action by the Prairie company, he will take steps to stop the corporation.

What will constitute the attorney general's first move is not known. He said today that he would not discuss the proposition even remotely. "I never give out in advance what I intend doing," he said. "That Mr. West will begin litigation of some nature, should he find the law, in his opinion, being violated, is taken for granted, however, by persons in close touch with affairs."

Mr. West said today that the county commissioners had no power to allow the Prairie company to traverse the public roads and he is waiting only to secure authoritative evidence of the company's having gone that far. He has received messages telling of the activity of the Standard branch and is in communication with men who represent him and the progress of the pipe line will be closely followed.

The Prairie officials insist that they are not intending to violate the state law which forbids foreign companies exercising the right of eminent domain but Mr. West says the crossing of a public highway is tan-

TO AILING WOMEN.

A Little Sound Advice Will Help Many a Sufferer.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the urine when the kidneys are well retained in the body when the kidneys are sick. Kidneys and bladder get inflamed and swollen crowding the delicate female organs nearby and something displacing them. This is the true cause of many bear-in-down pains, lameness, backache, sideaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, the remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well.

Mrs. F. Bash, residing at 206 West Second street, Oklahoma City, Okla., says, "I suffered very much from my kidneys failing to perform their functions properly. My back was very lame and at times I was laid up with it for days. I was weighed down with languor and depression and suffered from annoying irregularities of the kidney secretions. Doan's Kidney Pills were brought to my notice and I procured them. They soon relieved the aching and lameness in my back and rendered the secretions normal. I have every confidence in Doan's Kidney Pills. I cheerfully give them my endorsement."

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. IT'S BRYAN AT DENVER

With Wonderful Enthusiasm Big
Convention Begins. Banner
Bearing Bryan Portrait
Starts Noise.

DENVER, July 7.—With cheer-
ing from ten thousand throats with
the swell of political oratory and
the inspiring spectacle of a vast
multitude of people the democratic
national convention began its delir-
ious today.

The session lasting a little over
two hours was notable more for its
impressive magnitude and splendor
than for the business it accom-
plished. It gave however the
opportunity for the awakening
echo of convention enthusiasm the
speech of the temporary
president, Theodore A. Bell
of California, a heated skirmish
incident to the contest in the
Presidential delegation and finally
a unanimous tribute of homage
and respect to the memory of the
late Gen. Cleveland. But the en-
thusiasm of the opening session was
compromised by intermission and
disturbances without that long sus-
tained and frenzied clamor which
is still reserved for the future.

The day was devoted chiefly to
the primary formalities and the
committees are now at work pre-
paring the permanent organization
to be presented tomorrow. Mean-

time the convention kept pace over
the two days delay which must
intervene before the final purpose
is accomplished—the nomination of
a presidential candidate.

The tide of Bryan sentiment
swept on gathering force as it
passed and tonight the chorus of
Bryan is well nigh un-
denied. With it is a steady grow-
ing and recent for the nomination of
George Gray of Delaware vice
president and this movement at
first indistinct has now gained
a definiteness which promises to
merge it soon with the seemingly
overwhelmingly current moving to
wind Bryan tonight the opponents
of Bryan are still seeking to write
themselves out of the contest. In the
hope of ultimately accomplishing
this defeat.

It was a stirring scene which
spread before Chairman Bell at 11
noon today when with uplifted
sawd he sought to bring order out
of a confused babel of sound and
motion. The splendid amphitheatre
decked with flags and bunting was
packed to its utmost with a dense

Henrietta, Okla., July 7.—Threat-

Snake which has congregated on the
old Indian camp ground and Sun-
day has created a reign of terror
in this region today and no report
from the country immediately sur-
rounding Henrietta has been re-
ceived here tonight for protection. Crazy
Snakes refusal to surrender the
guns of his tribe men today and his
speech to his people will
looked upon as the final act pre-
ceding armed hostilities.

Armed men are patrolling the
town tonight. During the afternoon
messengers were dispatched into the
country to spread the warning.

Welch, Okla., July 7.—Stand
firm my men. Don't forget your
vows. Die game if necessary. We
will not disband. We have formed
a government of our own and we
will manage our own affairs.

This was the exhortation delivered
to 600 Indians by Chitto Harjo
Crazy Snake today after the Indians
refused to deliver their weapons upon
demand of Sheriff M. L. Odum of
McIntosh county.

Commanded to disband under
threat of arrest the Indians gave
a shapier refusal than at first.
Sheriff Odum then dispatched a re-
quest for Acting Governor Bellamy
to order out state troops.

BASE BALL ANNOUNCEMENT.

Together With a Few Observations
Concerning the Game and Ada's Team.

The News is requested to announce the beginning with the regular hour today, Wednesday afternoon, a series of three games will again be played with the Coalgate Invincibles by the Ada team. It will be remembered that the most interesting games of this season were played with the Coalgate team which is ranked with the very best of all

amateur teams in the southwest this season.

The last series of games with Coalgate resulted in a victory for Ada, the best two out of three, the game being the most interesting one, since it required 16 innings before the victory could be achieved by either side, Ada finally winning by a score of 3 to 2. There is no question but that all fans and all those who desire to show an appreciation will be remembered that the most of Ada's splendid team will make an effort to witness these games. The majority of the members of Ada's team are home boys and have

The Ada folks like to see "Fatty" pitch, particularly because he is a good one and next, because it is recognized that he has done more than any other man, likely to build for Ada this season a good ball team. Mr. Coffman is one of the substantial citizens of Ada, and besides playing ball engages his attention all along the line to the best interests of Ada. "Fatty" Coffman keeps in a good humor and plays ball with a vim, notwithstanding his alfalfa farm was considerably damaged by the flood. The line-up for the rest of the week is as follows: Chas. Gorman, short stop; John Kaiser, second base; Jim Ellis, first base; Harry Wright, centerfield; Earnest Reed, leftfield; Clyde Kaiser, catcher; Will Coffman, pitcher; Dewitt Bone, third base; Tom Shirley, rightfield.

All who have witnessed the ball games in Ada are good friends to Mike McDole, the Indian pitcher. Mike is good enough, says Sam Torbett, for the Texas league or most any other old league. He will be with Ada all the summer and will render good service. Jim Flowers, lately of Garland, Texas, has moved to Ada and will be engaged with Coffman's boys the rest of the season. Charlie Ellis, who is at present the manager of the Ada team, is not playing ball this year, although he is counted a good player.

The Leans and the Fats will pull off the game as advertised this afternoon. It became noised around this morning that likely the game could not be organized for the afternoon, but later, it was thought enough enthusiasm prevailed to get out enough of the old Fats and Leans to pull off a good game.

Let everybody remember the base ball appointments for this week.

and seething mass of humanity. Here and there amid this bewildering throng stood out the notable groups of leaders. Immediately in front and under the presiding officer's eye, were ranged the Nebraskan delegation, bronzed sons of the west, headed by the cowboy mayor, Dahlman, the personal spokesman of Bryan. Well in front were the New York cohorts, with Chief Murphy, cold and impenetrable, and Judge Parker rather serious-faced. Further back Colonel Guffey was the smiling center of his Pennsylvania adherents, and near him James Kerr who is struggling to displace Guffey and take up the leadership. Illinois was to the left center, with the renowned Roger Sullivan to the fore. Further back Tom Johnson, the fighting mayor of Cleveland, moved among his adherents until the gavel sent him to his place among the distinguished guests upon the platform. Near him there sat a notable group—the venerable Senator Daniel of Virginia, a type of the old-time southern, with Towne, the vice presidential candidate and orator, and the tall, blonde wasp Congressman Sulzer of New York. With the Virginians could be seen Governor Swanson with Nevada, Governor Dickenson and Senator Newland; with Kentucky, Senator McCreary; with Missouri, Senator Stone, and occasionally ex-Governor Dockery and the redoubtable Champ Clark, former Senators Dubois and Hefelfield.

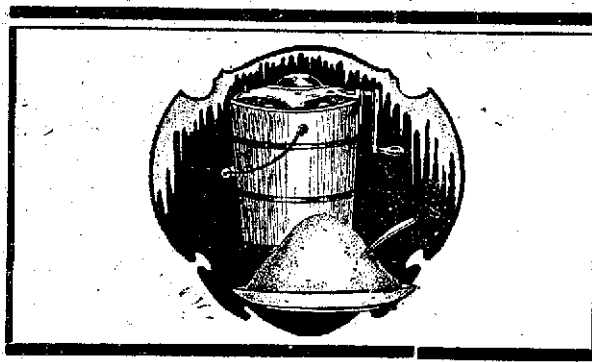

Johnson Men in Background.

Minnesota, with the Johnson lieutenants, was poorly placed in the rear, while Delaware, with the Gray forces, was better off in the right fore ground.

The appearance of the temporary presiding officer, Theodore A. Bell, of California, was another signal for enthusiastic outburst. He came forward amid the storm of tribute, tall and sturdy, but rather immaculate for one of the untutored, with silk fronted Prince Albert coat, resplendent with convention medals and watch chains, giving the appearance of a decorated diplomatist. In strong, far-carrying voice and easy gesture, he delivered the opening address, a full hour long, with resonating passages, on the righting of public wrongs, punctuated with yells as some phrase tickled the fancy of the throng. It was noticeable that great applause came from the delegates at Bell's impassioned declaration that the writ of injunction shall not be turned into an instrument of oppression. Again there was uproarious applause as

he arranged "republican campaign contributions without a cash register."

After referring to Taft as a "mis-directed candidate," and demanding "but one man in the White House at a time," he adroitly turned his speech into a panegyric for Mr. Bryan, the reference to the Nebraskan leader bringing forth tumultuous demonstration.

Haskell to Join Campaign.

Guthrie, Ok., July 2.—Gov. Haskell will have a speaking part in the approaching national campaign. On his return from Denver he will address the people of Sterling, Kan. Later the Governor will make a tour of the Middle States in the interest of the democratic ticket. It is Mr. Bryan's wish that he tour Ohio the Governor's native state. In all probability he will be expected to make between twenty and forty speeches.

RESOLUTION.

In Council Chambers of the City of Ada, Oklahoma.

Whereas, the first legislature of the State of Oklahoma has seen fit and wise to enact and pass into a law "House Bill No. 231," being "An Act to provide for the improvement of streets and other public places within cities of the First-class, by grading, paving, macadamizing, curbing, guttering and draining the same and declaring an emergency," and

Whereas, the city of Ada, Okla., has grown from a small country village to a city of the First-class under the laws of the State of Oklahoma, duly declared to be such by the Governor thereof; and

Whereas, the increased traffic on and over the public thoroughfares of the said city makes it imperative that more efficient and substantial streets and highways be built in the said city at once.

Therefore, be it resolved by the mayor and the councilmen of said city, in regular session assembled, that an urgent necessity for the paving, guttering, grading and curbing of Main street of said city, from the west side of the right of way of the St. Louis and San Francisco railroad to the east side of the right of way of the Missouri, Kansas and Texas railroad, Townsend avenue of said city, from the middle of 12th street, on the south to the west side of the right of way of the St. Louis and San Francisco railroad on the north and Rennie avenue of said city, from Main street to the middle of the alley between Main and 12th streets, be and is hereby declared to exist; and resolved further, that the said mayor and councilmen will proceed to grade, pave, gutter and curb the said streets and avenues between the points afore said with vitrified brick or asphaltum after fifteen days from the last day of the publication of this notice.

Passed and approved, this 6th day of July, A. D., 1908.

GEO. A. HARRISON, Mayor.
Attest: W.B. JONES, City Clerk.

Sister State Offers Good Advice on Question of the Oklahoma School Lands.

Under the above caption, the Kansas Mail and Breeze, one of the best agricultural papers of the west, discusses the school land question as it is presented in Oklahoma at this time. Read what it has to say:

"Oklahoma is debating the question of selling the school lands or holding them for lease. We presume that Oklahoma will sell the lands but in time the people will find out that they have made a mistake."

"Let us figure a little on the experience of Kansas. Originally there were set aside two sections of land in each township for the support of the common schools. Kansas has an area of 81,700 square miles. There are in the state all told 2,243 townships and 4,578 sections of school land. It is certainly a conservative estimate at the present time to say that the average value of these lands is \$1,000 per quarter or \$16,000 per section. If the state now owned this land it would be worth at a conservative estimate \$72,608,000. What a magnificent endowment for the common schools of the state! At an average rental of \$1 per acre the revenue from this land would amount to \$2,894,320 per annum. There are about 8,900 school districts in the state of Kansas and this revenue from school lands would furnish an average of \$324 per annum for each district."

According to the last biennial report of the state superintendent of public instruction, there was paid out for teachers' wages and supervision of schools in the state of Kansas during the year 1906 the sum of \$4,117,271. If the state owned the lands originally granted for the support of schools the revenue would pay nearly two-thirds of this bill. An average rental of \$1 per acre would pay more than half the annual expenditure in the state teachers' wages, buildings, repairs, fuel, lights and all other items of expense in keeping up the schools. Take a look at your school tax receipts and you are apt to find that your school taxes are the bigger half of all the taxes you have to pay. If the state of Kansas had been wise enough to keep her lands instead of fooling them away the school taxes would be cut down more than one-half."

It is safe to say that if the state of Kansas now owned its school lands and rented the same at a moderate rental the revenue derived therefrom would be at least nine times as great as the revenue now derived from the permanent school fund. And what security could be safer than these lands? Bonds of the best of corporations or of the most solvent of municipalities may become worthless. Towns have sprung up and flourished for a time and issued bonds which seemed good enough. Afterward adversity struck the town and it faded from the map. Of course the bonds became worthless. The state school fund has generally been honestly managed but nevertheless there are tens of thousands of worthless bonds held by that fund right now. Oklahoma will make a mistake to sell her school lands."

We know of no safer way to fedge the future than by the past. If the people of Kansas are today finding out that they made a mistake in selling off their school lands in the early days, before values had reached their maximum amount is it not reasonable to suppose that the people of Oklahoma will awaken to find themselves in the same condition in the years to come if they sell all the school lands at this time?

Then again there is the question of security of investment. The value represented in these lands in its present form is the safest investment it is possible to make. The lands can neither be stolen, destroyed or frittered away. No designing politician can possibly manipulate them for the benefit of his own personal interests. If the lands were sold and the money invested in bonds, mortgages, or the like, it would always be a constant source of temptation to the seeming, and unscrupulous. Doubtless some part of it—for that is the history of the handling of these funds in other states—would be improvidently or insecurely invested and lost. The balance would not in all probability be invested so as to yield better returns than in the lands."

The people of Oklahoma ought to think of these things before they vote to turn loose all these lands at this time, keeping in view at the same time that these lands were given to us for the benefit of the common school fund. Let's handle them so that they will conserve the interests of that fund rather than the interests of the lessees or anybody else."

WE WANT EVERYBODY TO COME and look at the bargains that we are offering in all edge property. Whether you invest your money in houses farms or suburban lots they are sure to bring you future profit. There is nothing so safe and reliable as real estate for your money, and we can show you money-making opportunities right here.

Longworth Gives Three Cheers for W. J. Bryan. Omaha, Neb., July 5.—Nicholas Longworth and his wife en route for Denver, were attempting to keep from being recognized at the station here today, but a detective from Michigan spied them and, rushing within the car, dragged Longworth to the platform. "Three cheers for Longworth," cried the Michiganian, and they were given by 150 Michiganders and joined by the others on the platform. "And three for his wife," called another, and they, too, were given. "Now, three for Roosevelt, the wife's father," and the crowd, almost all en route to the Democratic convention, roared a cheer. Then Longworth's train started and, when Longworth had swung himself onto the steps, he yelled, "Three cheers for William J. Bryan!" He joined in the deafening cheers which followed.

HASKELL TO BE IN CABINET Stated for Secretary of the Interior if Bryan Is Elected.

Denver, Colo., July 6.—In the event of Bryan's election as president, Governor Haskell of Oklahoma is slated for a cabinet position. It is understood that he will be secretary of the interior. That department has control over all affairs of the Indians of Oklahoma, including their persons, their cash and their property. Haskell has lived among the Indians long enough, he believes, to know what is best for them and for the new state. His term of governor will have two years to run, but he will give up to go into the cabinet. He feels that he can have all his reforms in operation in Oklahoma by that time, and that he can trust the reins of state government in the hands of the lieutenant governor.

Be Glad Today. Do not keep the alabaster boxes of your love and tenderness sealed up until your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their hearts can be thrilled and made happier by them; the kind you mean to say when they are gone, say before they go.

The flowers you mean to send for their coffins send to brighten and sweeten their homes before they leave them. If my friends have alabaster boxes laid away, full fragrant perfumes of sympathy and affection, which they intend to break over my dead body, I would rather they would bring them out in my weary and troubled hours and open them, that I may be refreshed and cheered by them while I need them. I would rather have a plain coffin without a flower, a funeral without an eulogy, than a life without the sweetness of love and sympathy. Let us learn to amuse our friends beforehand for their burial. Post-mortem kindness does not cheer the burdened spirit. Flowers on the coffin cast no fragrance backward over the weary way.—Amber.

PLATFOR PLANKS WHICH HAVE BRYAN'S APPROVAL Lincoln, Neb., July 5.—Opening with a sharp challenge to the republicans for failure to put into their platform specific declarations upholding the policies "professed" by the Roosevelt Administration, the platform that will be sent from Lincoln to the resolutions committee of the democratic national convention at Denver has been about completed. It follows closely the lines of the Nebraska platform as written by Mr. Bryan last March, and is one of the shortest enunciations of the kind in the modern political history of the country. Following the arrangement of the republicans for recasting from the "advanced position" taken by their "titular" leader during the last four years, the document will contain a fitting reference to the death of Grover Cleveland.

There are the leading points made in the platform: "We favor an immediate revision of the tariff. Articles entering into competition with articles controlled by trusts should be placed upon the free list."

"We favor an income tax and a national inheritance tax to reach the swollen fortunes already in existence." "Both Nation and States should ascertain present values of railroads, measured by cost of reproduction; prohibit issue of any more watered stock or fictitious capitalization; prohibit railroads from engaging in any business which brings them in competition with their shippers; and reduce transportation rates to a point where they will yield only a reasonable return on the present value of the roads."

"Emergency currency should be issued and controlled by the Federal Government." "We are opposed to the admission of Asiatic immigrants who can not be assimilated with our population." "We favor such a modification of the law relating to injunctions as will first prevent the issuing of the writ in industrial disputes except after notice to defendants, second, permit trial before a judge other than the one who issued the writ; and third, allow a jury to be summoned in all cases where the alleged contempt is committed outside the presence of the court."

"Equal rights to all and special privileges to none is the overshadowing issue at this time." "We insist upon legislation, State and National, making it unlawful for any corporation to contribute to campaign funds and providing for publication, before the election of all individual contributions above a reasonable minimum."

"We favor the election of United States Senators by direct vote of the people." "We favor the vigorous enforcement of the criminal law against trusts and trust magnates."

WEST WHETTING KNIFE TO RAIL ENCROACHMENT Guthrie, Okla., July 5.—The Prairie Oil and Gas company, alleged branch of the Standard, has its pipe line within the boundaries of the state in Washington county, and is rapidly extending, with its ultimate destination the shallow pool district. It has no domesticated, but is proceeding under a tentative agreement reached some time ago between Governor Haskell and President O'Neil of the company.

The company proposes to cross public highways after having secured the consent of the county commissioners. This was a part of the agreement with the governor. Attorney General West maintains that such procedure would be in clear violation of the state constitution and so soon as he is reliably informed of such action by the Prairie company, he will take steps to stop the corporation.

What will constitute the attorney general's first move is not known. He said today that he would not discuss the proposition even remotely. "I never give out in advance what I intend doing," he said. "That Mr. West will begin litigation of some nature, should he find the law, in his opinion, being violated, is taken for granted, however, by persons in close touch with affairs."

Mr. West said today that the county commissioners had no power to allow the Prairie company to traverse the public roads and he is waiting only to secure authoritative evidence of the company's having gone that far. He has received messages telling of the activity of the Standard branch and is in communication with men who represent him and the progress of the pipe line will be closely followed.

Heat prostrates the nerves in the summer one needs a tonic to offset the customary hot weather Nerve and Strength depression. You will feel better within 48 hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you won't get entirely strong in a few days, but each day you can actually feel the improvement. That tired, lifeless, spiritless feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a failing appetite, it aids digestion; it will strengthen the weakened Kidneys and Heart by simply rebuilding the worn-out nerves that these organs depend upon. Weak Kidneys
Weak Kidneys, surely point to weak kidney nerves. The kidneys, like the heart, and the stomach, are the great organs of the body, and if they are weak, the whole system is affected. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well. If your back aches or is weak, if the urine is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.

IT'S BRYAN AT DENVER

With Wonderful Enthusiasm Big Convention Begins, Banner Bearing Bryan Portrait Starts Noise.

Denver, July 7.—With cheer from ten thousand throats, with the swell of political oratory and the inspiring spectacle of a vast multitude of people, the democratic national convention began its deliberations today.

The session, lasting a little over two hours, was notable more for its impressive magnitude and spectacular effects than for the business accomplished. It gave, however, the opportunity for the awakening echoes of convention enthusiasm, the Teyates speech or the temporary president, officer, Theodore A. Bell, of California, a heated skirmish incidental to the contest in the Pennsylvania delegation, and finally a unanimous tribute of homage and respect to the memory of the late Grover Cleveland. But the enthusiasm of the opening session was comparatively brief, intermittent and tumultuous, without that long sustained and frenzied clamor which is still reserved for the future.

The day was devoted chiefly to the primary formalities, and the committees are now at work perfecting the permanent organization to be presented tomorrow. Mean-

time the convention hosts chase over the two days' delay which must intervene before the great purpose is accomplished—the nomination of a presidential candidate.

The tide of Bryan sentiment sweeps on, gathering force as it proceeds, and tonight the chorus of Bryan, Bryan is well nigh universal. With it is a steady growing undercurrent for the nomination of George Gray of Delaware as vice president, and this movement, at first intangible, has now assumed a definiteness which promises to merge it soon with the seemingly overwhelmingly current moving toward Bryan. Tonight the opponents of Bryan are still seeking to unite their strength against him with the hope of ultimately accomplishing his defeat.

It was a stirring scene which spread before Chairman Taggart at noon today, when with uplifted gavel, he sought to bring order out of a confused babel of sound and motion. The splendid amphitheater, bedecked with flags and bunting, was packed to its utmost with a dense

CRAZY SNAKE BAD AGAIN

Many Hundred Armed Threaten to Fight till Death

Henryetta, Okla., July 7.—Threatened outbreak of the tribe of Crazy Snake, which is congregated on the old Hickory camp ground near Seneca, has created a reign of terror in this region today, and 500 people from the country immediately surrounding Henryetta have flocked here tonight for protection. Crazy Snake's refusal to surrender the guns of his tribesmen today and his fiery speech to his people, were looked upon as the final act preceding armed hostilities.

Armed men are patrolling the town tonight. During the afternoon messengers were dispatched into the country to spread the warning.

Woleetka, Okla. July 7.—Stand firm, my men, Don't forget your vows. Die game if necessary. We will not disband. We have formed a government of our own and we will manage our own affairs.

This was the exhortation delivered to 3,000 Indians, by Chitto Harjo, Crazy Snake, today, after the Indians refused to deliver their weapons upon demand of Sheriff M. L. Odum of McIntosh county.

Commanded to disband under threat of arrest, the Indians gave a sharper refusal than at first. Sheriff Odum then dispatched a request for Acting Governor Bellamy to order out state troops.

BASE BALL ANNOUNCEMENT.

Together With a few Observations Concerning the Game and Ada's Team

The News is requested to announce the beginning with the regular season today Wednesday afternoon a series of three games will again be played with the Coalgate Invincibles by the Ada team. It is remembered that the most interesting games of this season were an effort to witness these games played with the Coalgate team which the majority of the members of is ranked with the very best of all.

amateur teams in the southwest this season

The last series of games with Coalgate resulted in a victory for Ada the best two out of three the game being the most interesting one since it required 16 innings before the victory could be achieved by either side Ada finally winning by a score of 3 to 2. There is no question but that all fans and all those Invincibles by the Ada team who desire to show an appreciation will be remembered that the most of Adas splendid team will make interesting games of this season were an effort to witness these games played with the Coalgate team which the majority of the members of is ranked with the very best of all.

lived here from childhood all the others more or less closely attached to Ada on account of long residence or because of the nice treatment received at the hands of their fellow players and the citizens generally most of whom are enthusiastic fans. The following list of names is the regular line-up for the game with Coalgate. It will be noticed that Fatty Will Coffman will occupy the box. The Ada folks like to see Fatty pitch particularly because he is a good one and next because it is recognized that he has done more than any other man. Likely to build for Ada this season a good ball team. Mr. Coffman is one of the substantial citizens of Ada and besides playing ball engages his attention all along the line to the best interests of Ada. Fatty Coffman keeps in a good humor and plays ball with a vim notwithstanding his alfalfa farm was considerably damaged by the flood. The line up for the rest of the week is as follows: Chas Gorman short stop, John Kaiser second base, Jim Ellis first base, Harry Wright centerfield, Earnest Reed, leftfield, Clyde Kaiser catcher, Will Coffman pitcher, Dewitt Bone third base, Tom Shirley rightfield.

All who have witnessed the ball games in Ada are good friends to Mike McDele the Indian pitcher. Mike is good enough says Sam Torbett for the Texas league or most any other old league. He will be with Ada all the summer and will render good services. Jim Flowers lately of Garland Texas has moved to Ada and will be engaged with Coffman's boys the rest of the season. Charlie Ellis who is at present the manager of the Ada team is not playing ball this year although he is counted a good player.

The Leans and the Fats will pull off the game as advertised this afternoon. It became noised around this morning that likely the game could not be organized for the afternoon but later, it was thought enough enthusiasm prevailed to get out enough of the old Fats and Leans to pull off a good game.

Let everybody remember the base ball appointments for this week

and seething mass of humanity. Here and there amid this bewildering throng stood out the notable groups of leaders immediately in front and under the presiding officer's eye. The ranged the Nebraska delegation, lionized sons of the west headed by the cowboy minor Dahlman the personal spokesman of Bryan. Well in front were the New York cohorts with Chief Murphy, tall and impenetrable, and Judge Piester rather serious faced. Further back Colonel Guffy was the smiling center of his Pennsylvania adherents and near him James Kerr who is struggling to displace Guffy and take up the leadership. Illinois was to the left center with the renowned Roger Sullivan to the fore. Further back Tom Johnson the fighting major of Cleveland moved among his adherents until the gavel sent him to his place among the distinguished guests upon the platform. Near him there sat a notable group—the venerable Senator Daniel of Virginia a type of the old time southern with Towne the vice presidential candidate and orator and the tall blonde wasp Congress man Sulzer of New York. With the Virginians could be seen Governor Swanson with Nevada Governor Dickenson and Senator Newland with Kentucky Senator McCreary with Missouri Senator Stone and occasionally ex Governor Dockery and the redoubtable Champ Clark, former Senators Dubois and Hefelfeld.

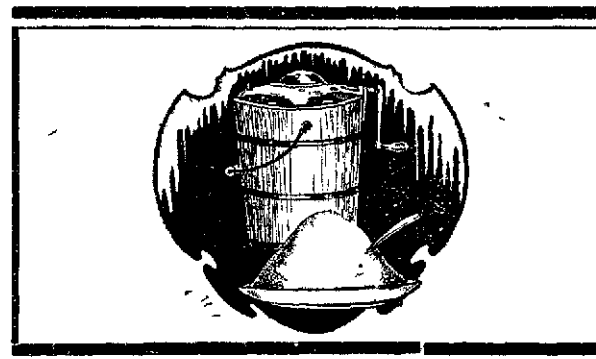

Johnson Men in Background

Minnesota with the Johnson lieutenants was poorly placed in the rear while Delaware with the Gray forces was better off in the right foreground.

The appearance of the temporary presiding officer Theodore A. Bell of California was another signal for enthusiastic outburst. He came forward amid the storm of tribute, tall and sturdy but rather immaculate for one of the untried with silk fronted Prince Albert coat, resplendent with convention medals and watch charms giving the appearance of a decorated diplomatist. In strong, far-carrying voice and easy gesture he delivered the opening address, a full hour long, with resounding passages, on the rights of public wrongs, punctuated with yells as some phrase tickled the fancy of the throng. It was noticeable that great applause came from the delegates at Bell's impassioned declaration that the writ of injunction shall not be turned into an instrument of oppression. Again there was uproarious applause as

After referring to Taft as a misdirected candidate and demanding 'but one man in the White House at a time he adroitly turned his speech into a panegyric for Mr. Bryan the reference to the Nebraska leader bringing forth tumultuous demonstration.

Haskell to Join Campaign.

Guthrie Ok July 2—Gov. Haskell will have a speaking part in the approaching national campaign. On his return from Denver he will address the people of Sterling Kan. Later the Governor will make a tour of the Middle States in the interest of the democratic ticket. It is Mr. Bryan's wish that he tour Ohio the Governor's native state. In all probability he will be expected to make between twenty and forty speeches.

RESOLUTION.

In Council Chambers of the City of Ada, Oklahoma.

Whereas the first legislature of the State of Oklahoma has seen fit and wise to enact and pass into a law House Bill No 231 being An Act to provide for the improvement of streets and other public places within cities of the First class by grading paving macadamizing curbing guttering and draining the same and declaring an emergency, and

Whereas the city of Ada Okla has grown from a small country village to a city of the First class under the laws of the State of Oklahoma duly declared to be such by the Governor thereof and

Whereas the increased traffic on and over the public thoroughfares of the said city makes it imperative that more efficient and substantial streets and highways be built in the said city at once

Therefore be it resolved by the mayor and the councilmen of said city in regular session assembled that an urgent necessity for the paving guttering grading and curbing of Main street of said city from the west side of the right of way of the St. Louis and San Francisco railroad to the east side of the right of way of the Missouri Kansas and Texas railroad Townsend avenue of said city from the middle of 12th street on the south to the west side of the right of way of the St. Louis and San Francisco railroad on the north and Regue avenue of said city from Main street to the middle of the alley between Main and 12th streets, be and is hereby declared to exist and resolved further that the said mayor and councilmen will proceed to grade pave, gutter and curb the said streets and avenues between the points afore said with vitrified brick or asphaltum after fifteen days from the last day of the publication of this notice.

KANSAS IS SORRY.

Sister State Offers Good Advice on Question of the Oklahoma School Lands.

Under the above caption, the Kansas Mail and Breeze, one of the best agricultural papers of the west, discusses the school land question as it is presented in Oklahoma at this time. Read what it has to say:

"Oklahoma is debating the question of selling the school lands or holding them for lease. We presume that Oklahoma will sell the lands but in time the people will find out that they have made a mistake.

"Let us figure a little on the experience of Kansas. Originally there were set aside two sections of land in each town for the support of the common schools. Kansas had an area of 31,700 square miles. There are in the state all told 2,200 townships and 175 sections of school land. It is estimated a conservative estimate at the present time to say that the average value of these lands is \$1,000 per quarter or \$16,000 per section. If the state now owned this land it would be worth at a conservative estimate \$22,000,000. What a magnificent endowment for the common schools of the state!

At an average rental of \$1 per acre the revenue from this land would amount to \$2,904,320 per annum. There are about 8,000 school districts in the state of Kansas and this revenue from school lands would furnish an average of \$361 per annum for each district.

According to the last biennial report of the state superintendent of public instruction, there was paid out for teachers' wages and supervision of schools in the state of Kansas during the year 1906 the sum of \$1,117,271. If the state owned the lands originally granted for the support of schools the revenue would pay nearly two-thirds of this bill.

An average rental of \$1 per acre would pay more than half the annual expenditure in the state for teachers' wages, buildings, repairs, fuel, lights and all other items of expense in keeping up the schools.

Take a look at your school tax receipts and you are apt to find that your school taxes are the biggest bill of all the taxes you have to pay. If the state of Kansas had been wise enough to keep her lands instead of fooling them away the school taxes would be cut down more than one-half.

It is safe to say that if the state of Kansas now owned its school lands and rented the same at a moderate rental the revenue derived therefrom would be at least nine times as great as the revenue now derived from the permanent school fund. And what security could be safer than these lands? Bonds of the best of corporations or of the most solvent of municipalities may become worthless. Towns have sprung up and flourished for a time and issued bonds which seemed good enough. Afterward adversity struck the town and it faded from the map. Of course the bonds became worthless. The state school fund has generally been honestly managed and nevertheless there are tens of thousands of worthless bonds held by that fund right now.

Oklahoma will make a mistake to sell her school lands.

We know of no other way to judge the future than by the past. If the people of Kansas are today finding out that they made a mistake in selling off their school lands in the early days, before values had reached their maximum amount, is it not reasonable to suppose that the people of Oklahoma will awaken to find themselves in the same condition in the years to come if they sell all the school lands at this time?

Then again there is the question of security of investment. The value represented in these lands in its present form is the safest investment it is possible to make. The lands can neither be stolen, destroyed or frittered away. No designing politician can possibly manipulate them for the benefit of his own personal interests. If the lands were sold and the money invested in bonds, mortgages, or the like, it would always be a constant source of temptation to the seeming, and unscrupulous. Doubtless some part of it—for that is the history of the handling of these funds in other states—would be improvidently or insecurely invested and lost. The balance would not in all probability be invested so as to yield better returns than in the lands.

Longworth Gives Three Cheers for W. J. Bryan.

Omak, Kan., July 5.—Nicholas Longworth and his wife en route for Denver, were attending to keep from being recognized at the station here today, but a delegation from Michigan spied them and, rushing within the car, dragged Longworth to the platform.

"Three cheers for Lee Vortin," cried the Michiganders, and they were given by 150 Michiganders and joined by the others on the platform. "And three for his wife," called another, and they, too, were given. "Now three for Roosevelt, the wife's father," and the crowd, almost all en route to the Democratic convention, sounded a cheer. "Then Longworth's turn stated and when Longworth had secured himself onto the steps, he yelled, 'Three cheers for William J. Bryan!'"

He joined in the cheering cheer, which followed.

HASKELL TO BE IN CABINET

Stated for Secretary of the Interior, if Bryan is Elected.

Denver, Colo., July 6.—In the event of Bryan's election as president, Governor Haskell of Oklahoma is slated for a cabinet position. It is understood that he will be secretary of the Interior. That department has control over all affairs of the Indians of Oklahoma, including their persons, their cash and their property.

Haskell has lived among the Indians long enough, he believes, to know what is best for them and for the new state. His term of governor will have two years to run, and he will give up to go into the cabinet. He feels that he can have all his reforms in operation in Oklahoma by that time, and that he can trust the reins of state government to the hands of the lieutenant governor.

Be Kind Today.

Do not keep the alabaster boxes of your love and tenderness sealed up until your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their ears can hear them and while their hearts can be thrilled and made happier by them. The kind you mean to say when they are gone, say before they go.

The flowers you mean to send for their coffins send to brighten and sweeten their homes before they leave them. If my friends have alabaster boxes laid away, full fragrant perfumes of sympathy and affection, which they intend to break over my dead body, I would rather they would bring them out in my weary and troubled hours and open them, that I may be refreshed and cheered by them while I need them. I would rather have a plain coffin without a flower, a funeral without an eulogy, than a life without the sweetness of love and sympathy.

Let us learn to appoint our friends beforehand for their burial. Post-mortem kindness does not cheer the burdened spirit. Flowers on the coffin cast no fragrance backward over the weary way.—Amber.

PLATFOR PLANES WHICH HAVE BRYAN'S APPROVAL

Lincoln, Neb., July 5.—Opening with a sharp challenge to the republicans for failure to put into their platform specific declarations upholding the policies "professed" by the Roosevelt Administration, the platform that will be sent from Lincoln to the resolutions committee of the democratic national convention at Denver has been about completed. It follows closely the lines of the Nebraska platform as written by Mr. Hanna last March, and is one of the shortest declarations of the kind in the modern political history of the country. Following the arrangement of the republicans for retreating from the "advised position" taken by their "titular" leader during the last year ago, the document will contain a strong appeal to the death of the "Cleveland."

There are the leading points made in the platform.

"We favor an immediate revision of the tariff. Tariffs cannot be in competition with articles controlled by trusts—should be placed upon the free list."

"We favor an income tax and a national inheritance tax to reach the swollen fortunes already in existence."

"Both Nation and States should ascertain present values of railroads, measured by cost of reproduction; prohibit issue of any more watered stock or fictitious capitalization; prohibit railroads from engaging in any business which brings them in competition with their shippers; and reduce transportation rates to a point where they will yield only a reasonable return on the present value of the roads."

"Emergency currency should be issued and controlled by the Federal Government."

"We are opposed to the admission of Asiatic immigrants who can not be assimilated with our population."

"We favor such a modification of the law relating to injunctions as will not prevent the issuing of the writ in industrial disputes except after notice to defendants, second, permit trial before a judge other than the one who issued the writ; and third, allow a jury to be summoned in all cases where the alleged contempt is committed outside the presence of the court."

"Equal rights to all and special privileges to none is the overshadowing issue at this time."

"We insist upon legislation, State and National, making it unlawful for any corporation to contribute to campaign funds and providing for publication, before the election of all individual contributions above a reasonable minimum."

"We favor the election of United States Senators by direct vote of the people."

"We favor the vigorous enforcement of the criminal law against trusts and trust magnates."

WEST WHETTING KNIFE TO BALK ENFORCEMENT

Guthrie, Okla., July 5.—The Prairie Oil and Gas company, alleged branch of the Standard, has its pipe line with the boundaries of the state in Washington county, and is rapidly extending, with its ultimate destination the shallow pool district. It has not domesticated, but is proceeding under a tentative, agreement reached some time ago between Governor Haskell and President O'Neil of the company.

The company proposes to cross public highways after having secured the consent of the county commissioners. This was a part of the agreement with the governor.

Attorney General West maintains that such procedure would be in clear violation of the state constitution and so soon as he is reliably informed of such action by the Prairie company, he will take steps to stop the corporation.

What will constitute the attorney general's first move is not known. He said today that he would not discuss the proposition even remotely. "I never give out in advance what I intend doing," he said. "That Mr. West will begin litigation of some nature, should he find the law, in his opinion, being violated, is taken for granted, however, by persons in close touch with affairs."

Mr. West said today that the county commissioners had no power to allow the Prairie company to traverse the public roads and he is waiting only to secure authoritative evidence of the company's having gone that far. He has received messages telling of the activity of the Standard branch and is in communication with men who represent him and the progress of the pipe line will be closely followed.

The Prairie officials insist that they are not intending to violate the state law which forbids foreign companies exercising the right of eminent domain but Mr. West says the crossing of a public highway is tan-

TO ALING WOMEN.

A Little Sound Advice Will Help Many a Sufferer.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the urine when the kidneys are well retained in the body when the kidneys are sick. Kidneys and bladder get inflamed and swollen crowding the delicate female organs nearby and something disturbs them. This is the true cause of many bearing-down pains, lumbago, backache, soreness, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, the remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well.

Mrs. F. Barth, residing at 205 West Second Street, Oklahoma City, Okla., says: "I suffered very much from my kidneys failing to perform their functions properly. My back was very lame and at times I was laid up with it for days. I was weighed down with languor and depression and suffered from annoying irregularities of the kidney secretions. Doan's Kidney Pills were brought to my notice and I procured them. They soon relieved the aching and lameness in my back and rendered the secretions normal. I have every confidence in Doan's Kidney Pills. I cheerfully give them my endorsement."

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The kidneys, like the heart, and the stomach, are the great centers, not in the organs itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is scanty, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggists recommend and sell.
